\* \*\*Creative Cloud for a subscription that provides five months of free use\*\*. At the time this book was written, February 2018, you can sign up for a Creative Cloud subscription that grants you free access to Photoshop CC for five months. The features can be used on a personal computer or you can use it as a member of a

---

university/college. On the other hand, if you're not near a university or college, you can sign up for a single-user, non-CC subscription. This plan grants you an annual subscription but provides you with free access to Photoshop for only one year. At the time of this book's writing, a one-year subscription was \$19.99. The CC plan grants you access to Photoshop CC, three mobile apps,

---

Lightroom CC, an Adobe Cloud service, and a web service. All of these features together can be used to work on any file, regardless of the type of media. While you're working, you can open the file in the browser, see it on your smartphone, or print or scan it. If you save your work, you can do it in the browser, on your smartphone, or via your laptop. # Workspaces Each

of Photoshop's document modes, which are discussed in Chapter 11, has a corresponding workspace that makes switching between the different document modes easier, and the workspace serves as a default document mode. Likewise, for a particular workspace, you can set the settings that apply to all your documents. You set a workspace to be the default

workspace when you create a new document and, in the subsequent dialog box, select the workspace as the default workspace for that new document. If you already have an existing document open, the Open dialog box (Choosing a Document) lets you select a workspace to open the document in. \* \*\*Create a New Document\*\* creates a new document in the active workspace. To change the

active workspace, choose Window → Workspaces or press Ctrl+1 (⌘-1 on the Mac). The Workspaces dialog box (Figure 14-1) lists all your available workspaces. It also displays the names of all the documents currently open in each workspace, in the right pane. To open a document in a different workspace, highlight the name of the workspace in the list and choose Open. \*
